HEATLESS DESICCANT DRYERS LINE OVERVIEW

GENERAL INFORMATION

MANUFACTURER	SPX Hankinson
TYPE	Heatless Desiccant
RATED CAPACITY	100 to 5400 SCFM
PRESSURE DEW POINT	-40F to -100F
MIN/MAX PRESSURE	60 to 150 PSIG
MAX AIR INLET TEMP	120F
MIN/MAX AMBIENT	35F to 120F
VOLTAGE	120
AMPS	20

Sizes Available

- 100, 250, 450, 930, 1550, 3000 and 5400 SCFM

Features

- Mounted particulate and oil removal prefilters c/w automatic condensate drains and a one micron after filter - no field installation of filters required
- Heavy duty frame with lifting lugs and fork lift channels for easy handling
- NEMA 4, 115/1/60 electrics - suitable for outdoor operation (all pneumatic units available)
- Units can be field adjusted for -40°F or -100°F pressure dew point
- Full instrumentation package provides ready indication of system malfunction
- Optional low ambient package offering operation in environments as low as -10F
